Trendwise Analytics

A Big Data Company

Big Data Innovation Lab (BIL) Program Overview

- Goals & Objectives
- Commitment from Institution/University
- Commitment from Trendwise Analytics

Goals & Objectives

- To set up a network of Big Data Innovation Labs with select few Institutions/Universities
- Increase awareness and innovation in the area of Big Data and Analytics
- Provide an environment for students to learn about and experiment with Big Data
- Create innovative applications to solve real life problems
- Encourage entrepreneurship
- Prepare students to be employable in the Big Data and Analytics world

Commitment from Institution/University

- 5-10 Computers/laptops with Network connectivity
 - Existing computers/laptops can be used
- Dedicated physical space for the above
- 5 Student volunteers to work with Trendwise Analytics Team to execute the program
- 8-10 hours of time per month from Faculty to assess and track progress
- Spread awareness about this program among students of MCA, Engineering (B.Tech and M.Tech) and Mathematics(Statistics)

Commitment from Trendwise Analytics

- Trendwise Analytics will provide the Big Data and Analytics expertise and know how
- Help set up the Big Data environment
- Will conduct guest lectures
- Will collect and validate ideas for projects
- Incubate excellent entrepreneurial ideas
